

How to find the Basic Child Support Obligation (BCSO) using an example of the **Table**:

See below an example using an excerpt from the Table intended to help one understand how to select the correct BCSO.

The table displays the dollar amount of the BCSO corresponding to various levels of combined adjusted income of the children's parents and the number of children for whom a child support order is being established or modified in the present action. To use the table correctly, one must find the amount of the Combined Adjusted Income on the table that is most closely related to the parents' gross income.

Once you have determined the amount of Total "Combined Adjusted Income" to use, go to the column that represents the number of children included in your worksheet. Follow across the line of income and down the column for the number of children in the action until they intersect. That sum will be used as the Basic Child Support Obligation amount and entered on Line 3 of the worksheet.

Georgia Schedule of Basic Child Support Obligations						
Combined Adjusted Income	One Child	Two Children	Three Children	Four Children	Five Children	Six Children
2,800	583	829	962	1,073	1,180	1,284
2,850	592	842	977	1,089	1,198	1,303
2,900	601	855	992	1,106	1,216	1,323

In this example, the parents' Total "Combined Adjusted Income" is \$2867.90 (found on Line 2). The amount of income on the table that is closest to the parents' income is \$2,850.00. **Thus, in this example, the correct amount of the Total "Combined Adjusted Income" to use is \$2850.00.**

Why did we choose \$2850.00 and neither of the other two amounts? This can be explained by looking at the difference in the actual gross income of the parents' when compared to the amounts found under the column in the table labeled "Combined Adjusted Income".

The difference between \$2867.90 and \$2800 is \$67.90.

The difference between \$2867.90 and \$2850 is \$17.90. (Most closely related amount.)

The difference between \$2867.90 and \$2900 is \$32.10
