However, in a paragraph (a) [primary custody] calculation and in the first stage of a paragraph (b) [shared, divided or hybrid custody] calculation, if the calculations result in a support amount below \$50.00 per month, a minimum support amount of \$50.00 per month (\$600 per year) must be set. This \$50.00 minimum support applies for all children, not to each child separately. The minimum level may be reduced if an extended visitation credit is granted under Rule 90.3(a)(3).
